## DETAILED ACTION

### *Response to Amendment*

1. In response to the Amendment received on November 5, 2005, the examiner has carefully considered the amendments.

### *Terminal Disclaimer*

2. The terminal disclaimer filed on November 05, 2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6,251,965 B1 has been reviewed and is accepted. The terminal disclaimer has been recorded.

### *Response to Arguments*

3. Applicant's arguments, see Response, filed November 05, 2005, with respect to claims 47-48 and 79-82 have been fully considered and are persuasive. The obviousness-type double patenting rejection of claims 47-48 and 79-82 has been withdrawn with the acceptance of the Terminal Disclaimer.

## EXAMINER'S AMENDMENT

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Louis Cullman on January 21, 2005.

The application has been amended as follows:

Please cancel claims 79-80.

*Allowable Subject Matter*

5. Claims 47-48 and 81-82 are allowed.

6. The following is an examiner's statement of reasons for allowance: The primary reasons for allowance is the "interpenetrating polymer network" in claim 48. In addition, while surface modification is known in the prior art, the prior art fails to expressly teach and/or fairly suggest the method and products in combination with the components as found in the instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

7. The following is an examiner's statement of reasons for allowance: In the examiner's opinion, it would not have been obvious for a person of ordinary skill in the art to surface modify a silicone substrate as defined by the claims to produce the products (clms. 79-82.) by such method.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
